

Tank & Gas Information

Truk Master - Bikini Atoll

Important information on cylinders

- All cylinder valves on board are standard 200 bar DIN/yoke convertible that can be used with both DIN and yoke (A-Clamp) regulators (DIN valves highly recommended)
- Due to space constraints on Truk Master, all guests must request their cylinders before the start of the trip. Failure to notify us of cylinder requirements may mean the guests preferred cylinders are unavailable.

Important information on gases

- The standard fill on board is 3,000 psi / 207 bar
- Nitrox mixes are available from 23-93% on Truk Master with oxygen charged per litre. Oxygen onboard comes from an Oxygen generator producing 93% +/-3%. We only charge for oxygen added, but the minimum charge is 10 USD per fill.
- Helium is available for rebreathers only and is also charged per litre. As we do not bank non-standard gases on Truk Master all gases supplied will be charged for in full, even if they are not used.

*****We regret that, due to logistical issues in Bikini Atoll, we are not able to provide helium for Open Circuit divers*****

Important information for rebreathers

- We DO NOT carry M26 valves or adapters on board, guests must bring their own
- For rebreather divers we can supply oxygen and CO2 absorbent (Molecular Products 797 Sofnolime). The scrubber is charged per full 4.5kg tub.
- Spare oxygen cells and specialist rebreather tools are not available in Bikini Atoll, nor on Truk Master, so divers should bring their own

Cylinder package

- To make it easier and more economical for our guests, we offer cylinder packages. For Bikini Atoll trips, the package includes:
- Manifoldd Aluminium 80 cuft twinset OR Matched Aluminum 80cuft cylinders for Sidemount divers OR Set Steel 3L/2L Cylinders for Rebreather divers
- Up to 2x 40/80 cuft Stage Cylinders with rigging kits
- Additional non-standard cylinders can also be rented.

Cylinders available in Bikini Atoll (to be requested in advance)

We carry the following cylinder types of which there is limited stock; so please book these directly with your reservation (bookings are taken on a first come- first served basis):
